CURRICULUM VITAE

DATE PREPARED: Feb 2026

Name: Neeraj Kohli

Office address: Boston Urogyn
70 Walnut Street, Suite 101
Wellesley, MA 02481

Work Phone: 617-340-6446

Work E-Mail: **nkohli@bostonurogyn.com**

Work FAX: 617-674-3440

Place of Birth: Bombay, India

Education:

1989	BA	Pre-Med/Economics	Boston University College of Liberal Arts (Boston University Combined B.A./M.D. Six-year Medical Program)
1991	MD	Medicine	Boston University School of Medicine (Boston University Combined B.A./M.D. Six-year Medical Program)
2002	MBA	Business	Northwestern University Kellogg Graduate School of Management (Executive MBA Program)

Postdoctoral Training:

1991-1992	Intern	Ob/Gyn	Beth Israel Hospital, Harvard Medical School Boston, MA
1992-1995	Resident	Ob/Gyn	Beth Israel Hospital, Harvard Medical School Boston, MA

1995-1997	Fellow	Urogynecology/ Reconstructive Pelvic Surgery Gynecologic Surgery	Good Samaritan Hospital, University of Cincinnati College of Medicine Cincinnati, OH

Faculty Academic Appointments:

1991-1995	Clinical Fellow	Obstetrics and Gynecology and Reproductive Biology	Harvard Medical School
1995-1999	Instructor	Obstetrics and Gynecology	University of Cincinnati College of Medicine
1999-2001	Instructor	Obstetrics, Gynecology and Reproductive Biology	Harvard Medical School
2001-2025	Assistant Professor	Obstetrics, Gynecology and Reproductive Biology	Harvard Medical School

Appointments at Hospitals/Affiliated Institutions:

1997-1999	Attending Ob/Gyn	Good Samaritan Hospital, Cincinnati, OH
1999-2003	Attending Ob/Gyn	Mount Auburn Hospital, Cambridge, MA
2001-2003	Attending Ob/Gyn	Beth Israel-Deaconess Medical Center, Boston, MA
2001-2003	Attending Ob/Gyn	Tufts-New England Medical Center, Boston, MA
2006-2008	Attending Ob/Gyn	Exeter Hospital, Exeter, NH
2011-2015	Attending Ob/Gyn	Beverly Hospital, Beverly, MA
2014-2017	Attending Ob/Gyn	Boston IVF Surgical Center, Waltham
2015-2023	Attending Ob/Gyn	Martha's Vineyard Hospital, Martha's Vineyard, MA
2000-2025	Attending Ob/Gyn	Newton Wellesley Hospital, Newton, MA
2006-2025	Attending Ob/Gyn	Faulkner Hospital, Boston MA
2003-2025	Attending Ob/Gyn	Brigham and Women's Hospital, Boston MA
2004-2023	Attending Ob/Gyn	South Shore Hospital, Weymouth, MA
2011-	Medical Director	Boston Urogyn, Wellesley, MA
2012-	Attending Ob/Gyn	New England Surgical Center, Beverly, MA

Major Administrative Leadership Positions:

Local

1995	Chief Resident	Ob/Gyn	Beth Israel Hospital, Boston
1999-2003	Co-Director/Founder	Division of Urogynecology/ Reconstructive Pelvic Surgery	Mount Auburn Hospital, Cambridge, MA
1999-2003	Director/Founder	Fellowship in Urogynecology/ Reconstructive Pelvic Surgery	Mount Auburn Hospital, Cambridge, MA
		I developed and directed the first urogynecology/ reconstructive pelvic surgery fellowship at the Hospital	
1999-2003	Co-Director/Founder	Division of Urogynecology/ Reconstructive Pelvic Surgery	Beth Israel-Deaconess Medical Center, Boston, MA
		I developed and directed the first urogynecology/ reconstructive pelvic surgery division at the Hospital	
2002-2003	Co-Director/Founder	Division of Urogynecology/ Reconstructive Pelvic Surgery	Tufts-New England Medical Center, Boston, MA
2003-2010	Chief/Founder	Division of Urogynecology/ Reconstructive Pelvic Surgery	Brigham and Women's Hospital, Boston, MA
2003-2010	Director/Founder	Fellowship in Urogynecology/ Reconstructive Pelvic Surgery	Brigham and Women's Hospital, Boston, MA
		I developed and directed the first urogynecology/ reconstructive pelvic surgery fellowship at the Hospital	
2003-2010	Director/Founder	Division of Urogynecology/ Reconstructive Pelvic Surgery	Newton Wellesley Hospital, Newton, MA
2005-2010	Director/Founder	Division of Urogynecology/ Reconstructive Pelvic Surgery	South Shore Hospital, S. Weymouth, MA

2006-2009	Director/Founder	Division of Urogynecology/ Reconstructive Pelvic Surgery	Exeter Hospital, Exeter, NH
2011-	Medical Director		Boston Urogyn,Wellesley, MA

National

1997-1999	Associate Director	Ob/Gyn Residency	Good Samaritan Hospital, Cincinnati, OH
1997-1999	Associate Director	Fellowship in in Urogynecology/ Reconstructive Pelvic Surgery	Good Samaritan Hospital, Cincinnati, OH
1997-1999	Associate Director	Division of Urogynecology/ Reconstructive Pelvic Surgery	Good Samaritan Hospital, Cincinnati, OH
2007-2010	Chair	US Surgical/Urogyn Advisory Board	Coloplast Corporation, Minneapolis, MN
2013-2019	Chair	US Surgical/Urogyn Advisory Board	Hologic Corporation, Marlboro, MA
2013-2019	Chair	Medical Advisory Board	Bellybaloo, Inc.,Newton, MA
2014-	Chief Medical Officer		Emmy Medical, Holliston, MA

Committee Service:

Local

1998-1999	Member	Ob/Gyn Dept. Quality Assurance Committee	Good Samaritan Hospital, Cincinnati, OH
2003-2010	Member	BWPO Contract Committee	Brigham and Women's Hospital, Boston, MA
2003-2006	Member	Ob/Gyn Foundation Board	Brigham and Women's Hospital, Boston, MA
2006-2013	Member	OR Product Committee	Newton Wellesley Hospital,

			Newton, MA
2007-2009	Member	Physician's Council	Brigham and Women's Hospital, Boston, MA

National

2004-2007	Member	Committee on Coding & Nomenclature	American Urogynecologic Society
2009-2010	Member	Committee on Health Policy	American Urogynecologic Society

Professional Societies:

1996-2019	International Urogynecological Association	Member
1996-2019	American Urogynecology Society	Member
1995-2004	American Association of Gynecologic Laparoscopists	Member
1997-2001	International Society for the Study of Vulvovaginal Disease	Member
2000-2003	International College of Surgeons	Member

Editorial Activities:

Editorial Board Member

2005-2008 OBG Management

Associate Editor

2008-2019 MedReviews in Ob/Gyn

2019- Journal of Sexual Medicine

Ad hoc reviewer

1997-2020 Obstetrics and Gynecology

1997-2019 Contemporary Ob/Gyn

1999-2019 American Journal of Obstetrics and Gynecology

2000- International Urogynecology Journal and Pelvic Floor Dysfunction

2019- Journal of Sexual Medicine

Honors and Prizes:

1992	CREOG Residency Scholarship Award	Beth Israel Hospital
1994	CREOG Residency Scholarship Award	Beth Israel Hospital
1994	Wyeth-Ayerst Resident Reporter Program	ACOG Orlando
2000	Olympus Golden Laparoscope Award (Best Surgical Video)	AAGL Orlando
2001	Olympus Golden Laparoscope Award (Best Surgical Video)	AAGL San Francisco
2002	Jerome J. Hoffman Award (Best Postgraduate Prize Paper)	AAGL Miami
2006	Partners in Excellence Award Operational Efficiency	Brigham and Women's Hospital
2007-2008	Best Doctors in America	Best Doctors
2009-2010	Best Doctors in America	Best Doctors
2011	Partners in Excellence Award Collaboration between Urogynecology and MIGS	Brigham and Women's Hospital
2010-2011	Best Doctors in America	Best Doctors
2012	Academy Award, Best Documentary Film "Undefeated" Executive Producer	Hollywood, CA
2012-2013	Best Doctors in America	Best Doctors
2014-2015	Best Doctors in America	Best Doctors
2015	Finalist, Best Documentary Film "Killing Them Safely" Producer	Tribeca Film Festival
2016-2017	Best Doctors in America	Best Doctors

REPORT OF FUNDED AND UNFUNDED PROJECTS

Funding Information:

Past funding

1995	UroMed, Needham, MA Co-PI

Clinical investigation of a urethral catheter (RELIANCE Urinary Control Insert) for control of urinary incontinence.
Total Direct Cost $35000
The main goal was to assess the safety and efficacy of a novel urethral insert to control urinary incontinence.

1995 Good Samaritan Hospital, Cincinnati, OH
Co-PI
Electrophysiologic study in patients with 4th degree perineal laceration.
Total Direct Cost $7500
The main goal was to study changes in muscle function after traumatic obstetrical delivery.

1995 Good Samaritan Hospital, Cincinnati, OH
Co-PI
A randomized comparison of Ditropan vs. hypnotherapy in the treatment of urge incontinence.
Total Direct Cost $7500
The main goal was to assess the value of hypnosis compared to behavioral therapy for overactive bladder.

1995 Pfizer, Protocol 154-125-5919, Austin, TX
Co-PI
A randomized, multi-center double-blind, double dummy comparative trial of CP-116, 517/ CR--99, 219 and Cefoxitin/Doxycycline for the treatment of acute pelvic inflammatory disease in ambulatory subjects.
Total Direct Cost $17000
The main goal was to perform a clinical trial comparing a new antibiotic to traditional therapy for PID.

1995 Good Samaritan Hospital, Cincinnati, OH
Co-PI
The bony pelvis as an etiologic factor in genital prolapse.
Total Direct Cost $7500
The main goal was to assess the correlation between bony pelvic dimensions and risk of prolapse.

1997 Pharmacia & Upjohn, Protocol 97-OATA-039, Kalamazoo, MI
Co-PI
Dose escalation study with Telterodine in patients with overactive bladder.
Total Direct Cost $18000
The main goal was to perform a clinical trial to assess safety and efficacy of dose escalation of medication for overactive bladder.

1997 UroMed, Needham, MA
PI
Patient response to a urethral patch (Impress) anti-incontinence device.
Total Direct Cost $12500
The main goal was to assess the safety and efficacy of a novel urethral patch to control urinary incontinence.

1998 Eli Lilly and Co., Protocol FIJ-MC-SAAW, Indianapolis, IN
Co-PI
Duloxetine versus placebo in the relief of stress incontinence.
Total Direct Cost $22500
The main goal was to perform a clinical trial comparing duloxetine to placebo for treatment of SUI.

1998 Medical Center of Central Georgia, Macon, GA
Co-PI
Differences in the composition of the pelvic connective tissue as a possible etiologic factor of different susceptibility to uterovaginal prolapse in Caucasian, African-American, and Asian women.
Total Direct Cost $10000
The main goal was to investigate whether racial differences in connective tissue affect subsequent development of pelvic prolapse.

1998 American Urogynecologic Society/June Allyson Foundation
Co-PI
A comparison of the anatomy and histology of uterosacral ligaments in patients with and without pelvic organ prolapse.
Total Direct Cost $10000
The main goal was to difference the difference in uterosacral ligament anatomy and histology in patients with and without pelvic prolapse.

1999 SURX, Inc., IDE 980101, Pleasanton, CA
Co-PI
Use of the SURX probe for the treatment of female stress urinary incontinence: A transvaginal approach
Total Direct Cost $19000
The main goal was to assess safety and efficacy of radiofrequency energy for treatment of SUI.

2000 Tap Pharmaceutical Products, Inc., Protocol M98-946, Lake Forest, IL
PI
A 12-week safety and efficacy study of oral TAK-637 versus placebo in subjects with overactive bladder
Total Direct Cost $14000
The main goal was to perform a clinical trial for a new drug for treatment of overactive bladder.

2001 Advanced Biologics, Protocol FEI-001, Lambertville, NJ
PI
The safety, local tolerability, pharmacokinetics, and risk/benefit of oxybutynin transvaginal rings (TVR) in women with a history of overactive bladder
Total Direct Cost $9000
The main goal was to perform a clinical trial to assess safety and efficacy of transvaginal delivery of oxybutynin for OAB.

2001 Eli Lilly & Co., Protocol F1J-MC-SBAY, Indianapolis, IN
PI
Long term monitoring of safety in subjects treated with Duloxetine for stress

urinary incontinence
Total Direct Cost $21000
The main goal was to perform a clinical trial assessing long-term safety in patients treated with the duloxetine for SUI.

2002 SURX, Inc., IDE 980203, Pleasanton, CA
Co-PI
Evaluation of the safety and efficacy of the SURX Solarant system in the treatment of genuine urinary incontinence due to urethral mobility
Total Direct Cost $19500
The main goal was to assess safety and efficacy of a transvaginal minimally invasive radiofrequency treatment for SUI.

2003 Gynecare., Johnson & Johnson Co., Somerville, NJ
Co-PI
Evaluation of Safety and Efficacy of the TVT-AG (Abdominal Guide Procedure) for the Treatment of Stress Urinary Incontinence
Total Direct Cost $18000
The main goal was to assess safety and efficacy of abdominal approach to TVT suburethral sling.

2004 American Medical Systems, Minnetonka, MN
PI
United States Multi-Center Marketing Evaluation Study on the Utility and Effectiveness of the AMS Monarc Subfascial Hammock
Total Direct Cost $22000
The main goal was to assess safety and efficacy of transobturator suburethral sling for treatment of SUI.

Current Unfunded Projects

2013 An outpatient protocol for combined sacropexy and vaginal prolapse repairs
Investigator
The main goal is to determine the safety of a innovative combined approach to surgical treatment of advanced prolapse to reduce need for inpatient admission.

2014 Outcomes of Femiscan® pelvic floor physical therapy in women with urinary and fecal incontinence
Investigator
The main goal is to assess the efficacy and patient satisfaction of a novel pelvic floor PT program for treatment of urinary and fecal incontinence.

2016 Comparison of bladder trauma of a novel urinary catheter to traditional Foley catheter – A Sheep study
Investigator
The main goal is to determine if a design change in the catheter balloon can lead to decreased bladder trauma and associated CAUTI.

2019 Pilot Study of Urinary Fibrinogen and IL-6 as Potential Biomarkers of Catheter Associated Bladder Mucosal Trauma

Co-Investigator
The main goal is to assess of a traditional catheter with long tip causes more trauma to the bladder compared to a low profile catheter with a short tip

REPORT OF LOCAL TEACHING AND TRAINING

Teaching of Students in Courses:

Harvard Medical School

1994-1995	Lecture	Essentials of Ob/Gyn *10-12 medical students*	*1 hour lecture 5x/year*
2004-2009	Lecture	Urogynecology for Dummies *12-15 medical students*	*1 hour lecture 6x/year*
2007	Participant	Harvard Medical School OB/GYN Med Student Faculty Panel *25-30 medical students*	*1 hour lecture per year*
2008	Participant	Harvard Medical School OB/GYN Med Student Faculty Panel *25-30 medical students*	*1 hour lecture per year*

Formal Teaching of Residents:

Brigham and Women's Hospital

2003-2007	Lecture	Basic Principles Of Urogynecology *20-25 Ob/Gyn Residents*	*1 hour lecture per year*

Clinical Supervisory and Training Responsibilities:

1999-2003	Supervision in outpatient clinic and OR Beth Israel-Deaconess Medical Center	1-2 medical students 8 hrs /month for 26 weeks
1999-2003	Supervision in outpatient clinic and OR Mount Auburn Hospital Beth Israel-Deaconess Medical Center	4 residents 16 hrs /month for 26 weeks
1999-2003	Supervision in outpatient clinic and OR Mount Auburn Hospital Beth Israel-Deaconess Medical Center	1-2 Urogyn fellows 25-32 hours/week for 40 weeks
2003-2010	Supervision in outpatient clinic and OR Brigham and Women's Hospital	1-2 medical students 8 hrs /month for 20 weeks
2003-2010	Supervision in outpatient clinic and OR Brigham and Women's Hospital Newton Wellesley Hospital South Shore Hospital	1-2 Urogyn fellows 25-32 hours/week for 40 weeks

2003-2010	Ob/Gyn Resident Attending in Hospital/OR Brigham and Women's Hospital	4-6 Residents 4-6 medical students 10-12 hours/week for 2 weeks
2003-	Supervision in outpatient clinic and OR 3rd year gynecology rotation Newton Wellesley Hospital Brigham and Women's Hospital Faulkner Hospital	8-10 Residents 8-10 hours/week for 40 weeks

Research Supervisory and Training Responsibilities:

2003-2010	Supervision of fellow research projects Brigham and Women's Hospital	1-2 Urogyn fellows 8 hours per week

Formally Supervised Trainees:

Good Samaritan Hospital, Cincinnati, Ohio

1996-1998 **W Gregory Owen, MD**
Fellow, Urogynecology
Current Position: In private practice in Fairfield, OH

1997-1999 **Andrew C. Steele, MD**
Fellow, Urogynecology
Current Position: Professor and faculty member of the Division of Urogynecology at St Louis University of Medicine
Dr. Steele was a fellow in the Urogyn Division and worked actively on a number of research projects under my supervision, which resulted in several publications and presentations at national meetings.

1997-1999 **Padma Mallipedi, MD**
Fellow, Urogynecology
Current Position: Private practice at Kaiser Permanante,Santa Clara, CA
Dr. Mallipedi was a fellow in the Urogyn Division and worked actively on a number of research projects under my supervision, which resulted in several publications and presentations at national meetings.

1999-2000 **Steve Goldwasser, MD**
Fellow, Urogynecology
Current Position: Private practice at North Florida Ob/Gyn Associates, Jacksonville, FL

Mount Auburn Hospital, Cambridge, MA

1999-2002 **Briana Walton, MD**
Fellow, Urogynecology
Current Position: Director, Female Pelvic Medicine and Reconstructive Surgery, Anne Arundel Medical Group, Annapolis, MA

Dr. Walton was a fellow in the Urogyn Division and worked actively on a number of research projects under my supervision, which resulted in several publications and presentations at national meetings.

2000-2003 **Charles Rardin, MD**
Fellow, Urogynecology
Current Position: Assistant Professor at The Warren Alpert Medical School of Brown University and Director of the Robotic Surgery Program at Women & Infants, Division of Urogynecology and Reconstructive Pelvic Surgery, Providence, RI
Dr. Rardin was a fellow in the Urogyn Division and worked actively on a number of research projects under my supervision, which resulted in several publications and presentations at national meetings.

Brigham & Women's Hospital, Boston, MA

2004-2008 **Sujatha Rajan, MD**
Fellow, Urogynecology
Current Position: Private practice at Winchester Hospital, Winchester, MA
Dr. Rajan was the first fellow in the fellowship of Urogynecology and Reconstructive Pelvic Surgery at BWH. She was active in resident education, clinical research, presentations at national meetings, and clinical studies with scientific publication.

2000-2003 **Aparna Shah, MD**
Fellow, Urogynecology
Current Position: Volunteer Professor at University of Cincinnati College of Medicine and Associate in the Division of Urogynecology and Reconstructive Pelvic Surgery, Christ Hospital, Cincinnati, OH
Dr. Shah was a fellow in the Urogyn Division and worked actively on a number of research projects under my supervision, which resulted in several publications and presentations at national meetings.

2006-2008 **Danielle Patterson, MD**, **MSc**
Fellow, Urogynecology
Current Position: Assistant Professor, Department of Obstetrics and Gynecology; Tufts University School of Medicine and Associate, Division of Urogynecology and Reconstructive Pelvic Surgery, Tufts New England Medical Center, Boston, MA
Dr. Patterson was a fellow in the Urogyn Division and worked actively on a number of research projects under my supervision, which resulted in several publications and presentations at national meetings.

2009 **Niraj Chavan, MD**
Ob/Gyn Resident in New York City
Dr. Chavan was a research associate in the MIGS/Urogyn Division and contributed significantly to a variety of research projects, including a series of studies examining mode of access for hysterectomy, resulting in several publications and presentations at national meetings.

2009-2012 **James Oyekan**

Fellow, Urogynecology
Current Position: Chief of Urogynecology, US Army Base, Fort Polk, LA
Dr. Oyekan was a fellow in the Urogyn Division and worked actively on a number of research projects under my supervision, which resulted in several publications and presentations at national meetings.

Formal Teaching of Peers:

No presentations below were sponsored by outside entities

1995	Lecture	*"Surgical Management of Genuine Stress Incontinence",* Grand Rounds, Dept. of Ob/Gyn, Beth Israel Hospital, Boston, MA.
1996	Lecture	*"Diagnosis and Management of Site-Specific Defects in Pelvic Organ Prolapse",* Resident Education Lecture, Dept. of Ob/Gyn, Beth Israel Hospital, Boston, MA
1996	Lecture	*"Long Term Effects of Vaginal Delivery: A Gynecologic Perspective",* Grand Rounds, Dept. of Ob/Gyn, Beth Israel Hospital, Boston, MA
1999	Lecture	*"Minimally Invasive Surgical Options for Stress Urinary Incontinence",*Conference on Minimally Invasive Gynecological Surgery, Mount Auburn Hospital, Newton, MA
1999	Lecture	*"CPT Coding for the Urogynecologist"*,Ob-Gyn Grand Rounds, Mount Auburn Hospital/ Harvard Medical School, Cambridge, MA
2000	Lecture	*"Evaluation of Urinary Incontinence"*, Women's Health Issues – 2000 Educational Conference, Dept. of OB/GYN, Mount Auburn Hospital/Harvard Medical School, Cambridge, MA
2000	Lecture	*"Female Urinary Incontinence"*, Grand Rounds, Dept. of Medicine, Mount Auburn Hospital, Cambridge MA
2000	Lecture	*"Tension-Free Vaginal Tape Technique for Stress Urinary Incontinence"*, Gynecologic Laparoscopy and Urogynecology in the New Millennium, Newton, MA
2000	Lecture	*Vaginal Paravaginal Repair (video tape presentation)*, Vaginal Surgery Course, Beth Israel Deaconess Medical Center/Harvard Medical School, Boston, MA
2000	Lecture	*"Evaluating and Managing Fecal Incontinence"*, OB-GYN Grand Rounds, Beth Israel Deaconess Medical Center, Boston, MA
2000	Lecture	*"Abdominal Burch Procedure",* Vaginal Surgery Course, Beth Israel Deaconess Medical Center/Harvard Medical School, Boston, MA

2000	Lecture	*"Laparoscopic Urethrosuspension"*, American College of Obstetrics and Gynecology (MA Section) Annual Meeting, Burlington, MA
2001	Lecture	*"Strategic Implications of Customer Strategy"*, Ob-Gyn Grand Rounds, Mount Auburn Hospital/ Harvard Medical School, Cambridge, MA
2001	Lecture	*"TVT: State of the Art"*, Urology Grand Rounds, New England Medical Center, Boston, MA
2001	Lecture	*"Rectocele Repair with Synthetic Materials and Grafts"*,Vaginal Surgery Course, Beth Israel Deaconess Medical Center/Harvard Medical School, Boston, MA
2001	Lecture	*"TVT Suburethral Sling"*, Vaginal Surgery Course, Beth Israel Deaconess Medical Center/Harvard Medical School, Boston, MA
2001	Lecture	*"Sacral Neuromodulation for the Treatment of Pelvic Floor Dysfunction"*, Ob-Gyn Grand Rounds, Beth Israel-Deaconess Medical Center, Boston, MA
2002	Lecture	*"Choice of Materials in Pelvic Reconstructive Surgery"*, Vaginal Surgery Course, Beth Israel Deaconess Medical Center/Harvard Medical School, Boston, MA
2002	Lecture	*"Neuromodulation for Pelvic Floor Dysfunction"*, Internal Medicine Grand Rounds, Mount Auburn Hospital, Cambridge, MA
2003	Lecture	*"Innovations in the Treatment of Incontinence and Prolapse"*, Ob-Gyn Grand Rounds, Mount Auburn Hospital, Cambridge, MA
2003	Lecture	*"Graft Augmentation for the Surgical Correction of Pelvic Prolapse"*, Ob-Gyn Grand Rounds, Brigham and Women's Hospital, Boston, MA
2004	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Brigham and Women's Hospital, Boston, MA
2005	Lecture	*"Update in Urogynecology"*, Ob-Gyn Grand Rounds, Brigham and Women's Hospital, Boston, MA
2005	Lecture	*"Update in Urogynecology"*, Ob-Gyn Grand Rounds, South Shore Hospital, Weymouth, MA
2005	Lecture	*"Update in Urogynecology"*, Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA

2006	Lecture	*"Update in Urogynecology"*, Ob-Gyn Grand Rounds, Brigham and Women's Hospital, Boston, MA
2007	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Brigham and Women's Hospital, Boston, MA
2007	Lecture	*"Advances in Urogynecology",* Ob-Gyn Grand Rounds, South Shore Hospital, Weymouth, MA
2007	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA
2008	Lecture	*"Workshop on Urinary Incontinence",* 29th Annual Office Practice of Primary Care Medicine, Boston, MA
2009	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Brigham and Women's Hospital, Boston, MA
2009	Lecture	*"Workshop on Urinary Incontinence",* 30th Annual Office Practice of Primary Care Medicine, Boston, MA
2009	Lecture	*"Advances in Urogynecology",* Ob-Gyn Grand Rounds, South Shore Hospital, Weymouth, MA
2009	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA
2011	Lecture	*"Advances in Urogynecology",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA
2013	Lecture	*"Update in Urogyecology",* Brigham Update on Medicine, Boston, MA
2014	Lecture	*"Update in Urogyecology",* Brigham Update on Medicine, Boston, MA
2015	Lecture	*"Recent Trends in Urogynecology",* Ob-Gyn Grand Rounds, Martha's Vineyard Hospital, Oaks Bluff, MA
2015	Lecture	*"Mesh Update in Urogynecology",* Ob-Gyn Grand Rounds, South Shore Hospital, Weymouth, MA
2015	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA
2015	Case Presentation	*"Case of retained sponge during VH."* M&M Rounds, Newton-Wellesley Hospital, Newton MA
2016	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA

2017	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA
2017	Lecture	*"What's New in Urogynecology",* General Staff Grand Rounds, Martha's Vineyard Hospital, Oak Bluffs, MA
2018	Lecture	*"Vaginal Rejuvenation: Fact or Fiction",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA
2019	Lecture	*"Update in Urogynecology",* Ob-Gyn Grand Rounds, Newton-Wellesley Hospital, Newton, MA

REPORT OF REGIONAL, NATIONAL AND INTERNATIONAL INVITED TEACHING AND PRESENTATIONS

No presentations below were sponsored by outside entities

Regional

2002	Lecture	*"What's New in Pelvic Prolapse"*, Ob-Gyn Grand Rounds, Winchester Hospital, Winchester, MA
2002	Lecture	*"Neuromodulation for Pelvic Floor Dysfunction"*, Ob-Gyn Grand Rounds, New England Medical Center, Boston, MA
2007	Lecture	"*Contemporary Advances in Urogynecology",* Ob-Gyn Grand Rounds, Boston Medical Center, Boston, MA

National

1995	Grand Rounds	*"LAVH: Current Perspectives",* Grand Rounds, Dept. of Ob/Gyn, Bethesda Hospital, Cincinnati, OH
1996	Grand Rounds	*"Colpocleisis: Revisited",* Grand Rounds, Dept. of Ob/Gyn, Good Samaritan Hospital, Cincinnati, OH.
1996	Grand Rounds	*"Current Concepts in Urogynecology: Recurrent Cystocele Following Transvaginal Needle Bladder Neck Suspension"*, Grand Rounds, Dept. of Ob/Gyn, Good Samaritan Hospital, Cincinnati, OH
1996	Lecture	*"Indications and Complications of Obliterative Procedures Used in the Treatment of Advanced Pelvic Prolapse"*, Annual Meeting of the Gynecologic Surgery Society, Chicago, IL.
1996	Grand Rounds	*"The Neuropathic Hypothesis of Pelvic Floor Dysfunction",* Grand Rounds, Dept. of Ob/Gyn, Good Samaritan Hospital, Cincinnati, OH.
1997	Lecture	*"Pelvic Anatomy in Prolapse and Incontinence",* CORE OB/ GYN Educational Day, Center for Osteopathic Regional Education, Columbus, OH
1997	Lecture	*"Evaluation of the Incontinent Patient",* CORE OB/GYN Educational Day, Center for Osteopathic Regional Education, Columbus, OH
1997	Lecture	*"Operative Laparoscopy-Pearls"*, ACOG Luncheon Conference, ACOG 45th Annual Clinical Meeting, Las Vegas,

NV

1997	Grand Rounds	*"Site-specific Defects in the Etiology of Pelvic Prolapse",* Urogynecology Rounds, Dept. of Ob/Gyn, Good Samaritan Hospital, Cincinnati, OH.
1997	Lecture	*"The Anatomic Basis of Pelvic Organ Prolapse",* Resident Education Lecture, Dept. of Ob/Gyn, Cedars-Sinai Hospital, Los Angeles, CA
1997	Lecture	*"Surgical Correction of Cystocele and Vaginal Vault Prolapse",* Urology and Gynecology Symposium, Oakwood Hospital, Detroit, MI
1998	Grand Rounds	*"Cost Analysis of the Laparoscopic Colposuspension"*, Grand Rounds, Dept. of Ob/Gyn, Duke University Medical Center, Durham, NC
1998	Grand Rounds	*"Laparoscopic Approach to the Anterior Vaginal Segment: Incontinence and Prolapse"*, Grand Rounds, Dept. of Ob/Gyn, St. John's Mercy Medical Center, St. Louis, MO.
1998	Grand Rounds	*"Evaluation and Management of Fecal Incontinence",* Urogynecology Rounds, Dept. of Ob/Gyn, Good Samaritan Hospital, Cincinnati, OH

REPORT OF CLINICAL ACTIVITIES AND INNOVATIONS

Current Licensure and Certification:

1995-2001	Ohio
2006-2009	New Hampshire
1994-	Massachusetts
2004-2019	Fellow, American Board of Obstetrics and Gynecology
2015-	Board Certification, Female Pelvic Medicine and Reconstructive Surgery

Device Certifications (sponsored by the device company)

2000	Tension-Free Vaginal Tape	Ethicon Research Laboratory
2000	Interstim® Sacral Nerve Implant	Medtronic Corporation
2006	Trans-Obturator Tape®	Gynecare
2009	Remeex TRT adjustable Sling	Neomedic
2010	Mini-arc® single incision sling	American Medical Systems
2011	Bladder Botox injection	Allergan

Practice Activities (Current):

2013-2017	Operating Room	Boston IVF	2 sessions per month
2011-	Outpatient clinic	Boston Urogyn	4-6 sessions per week
2011-	Operating room	Newton-Wellesely Hospital	2 sessions per week
2011-	Operating room	Faulkner Hospital	1 sessions per month
2011-	Operating room	Brigham and Women's Hospital	1 sessions per quarter

2013-	Operating room	South Shore Hospital	1 session per quarter

Professional Clinical Positions:

1997-1998	Surgical Advisory Board	Uromed Corporation, Needham MA
1998-2000	Clinical Consultant	LifeCell Corporation, The Woodlands TX
1998-2009	Clinical Consultant	Boston Scientific Corporation, Natick MA
1998-2004	Clinical Consultant	Gynecare Corporation, Somerville NJ
2000-2001	Consultant	Scientific Advisory Board, Medilogix Company
2000-	Co-Chair	Urogynecology Section, ObGyn.net
2000-2009	Clinical Consultant	CR Bard, Inc., Murray Hill, NJ
2001-2005	Medical Advisory Board	SURx, Livermore, CA
2007-2010	Chair, US Surgical/Urogyn Advisory Board	Coloplast Corporation, Minneapolis, MN
2013-2017	Chair, US Surgical/Urogyn Advisory Board	Hologic Corporation, Marlboro, MA
2013-2017	Chair, Medical Advisory Board	Bellybaloo, Inc.,Newton, MA
2018-2020	Clinical Consultant	Hologic Corporation, Marlboro, MA
2018-2021	Clinical Consultant	BTL Industries, Marlboro, MA
2014-Present	Chief Medical Officer	Emmy Medical, Holliston, MA

Clinical Innovations:

1. **Minimally Invasive Treatment Of Stress Incontinence–** I have been offering and developing novel approaches to urinary incontinence beginning with the introduction of TVT and continuing to graft augmented prolapse repairs, office based surgical neuromodulation, bladder Botox injection, and RF treatment to the vagina. I have been an early adopter, investigator, lecturer, and clinical educator of these novel treatment modalities that have now been established as standards of care. Recently, I am studying novel minimally invasive approaches to stress incontinence not requiring mesh implants. These include laser and RF energy and a HiFEM megnetic chair. I have worked closely with companies and colleagues to bring them to the mainstream for widespread use.

2. **Graft Augmentation of Prolapse Repair** - I was the first to report the novel use of a cadaveric dermal graft for the augmentation of standard plication prolapse repair. My initial work lead to development of grafts and subsequent mesh use for vaginal prolapse

repair. Despite the current medicolegal controversies regarding commercially available products, the technique using biologic grafts continues to offer appropriately selected patients better clinical results compared to traditional native tissue repair.

3. **Combined UROGYN/MIGS Surgery for Advanced Prolapse –** In conjunction with the MIGS units at BWH and NWH, we have developed a highly effective joint program for the combined laparoscopic/vaginal repair of advanced uterovaginal prolapse. Cases that routinely take great than 3 hours and often require use of robotic assistance elsewhere are routinely performed by our joint program in 2 hours or less with the result that over 95% of patients are discharged the same day. These results have been published.

4. **Urinary Catheter Access Sheath for Standardized Cystoscopy -** I have co-developed a unique 4-way urinary catheter which allows safer and simpler female cystoscopy with the hope of enabling all clinicians to easily and effectively perform the procedure routinely at the time of complex gynecologic surgery and when indicated in the office-reducing postoperative complications and need for subspecialty referral and making healthcare more efficient and cost-effective.

5. **Low Profile Urinary Catheter to Reduce CAUTI -** I have co-developed a unique low profile urinary catheter which may reduce catheter trauma and this may be the physiologic cause of CAUTI. Use of the catheter may reduce pain, overactive bladeer, hematuria, and CAUTI.

6. **PRP for Treatment of Interstitial Cystitis -** Platelet Rich Plasma has been used in a variety of clinical conditions ranging from orthopedics to plastics. I was the first person to use PRP for Interstitial Cystitis in the US based on early data from China. I have developed a unique office based protocol for treatment and followup. To date, I have treated 30 patients refractory to traditional therapies with over 80% success in reduction of pain and urgency/frequency. A clinical study is currently in progress to assess long term results.

7. **Advanced Therapies for Pelvic Pain/GSM** – BostonUrogyn is one of the first centers to use vaginal application of cold laser/photobiomodulation for pelvic pain and published the first study of pilot results showing up to 80% efficacy for treatment of myofascial pelvic pain. We are also evaluating use of the EMSella HIFEM chair for treatment of myofascial pain. Finally, we recently introduced to the US and novel vaginal treatment using oxygen and hyaluronic acid for the treatment of genitourinary syndrome of menopause offering women and non-hormaonal, nonenergy based treatment previously validated in Europe in over 1000 patients. I am currently conducting the first US study of this device, CaressFlow

Technological/Scientific Innovation:

1. **4 Way catheter sheath for female cystoscopy. US Patent Application, 9,149,176, issued October 6th, 2015**
   I have co-developed a novel catheter style sheath to enable standardization of female cystoscopy. This device is designed to allow all clinicians to perform cystoscopy in a safer and simpler way with minimal learning curve. This technology should help make cystoscopy a standard at every gynecologic surgery and reduce the incidence of

undiagnosed urinary tract injury. The catheter has had a patent issued, been cleared by the FDA, and is currently in pre-market evaluation and sales.

2. **Urinary drainage catheter with flat balloon and distal drainage tip. US Patent Application pending**
   I have co-developed a novel urinary catheter which employs an flat pancake balloon and open distal tip for drainage designed to drain the bladder more efficiently, reduce bladder trauma, and potentially decrease risk of CAUTI. The patent application is pending and animal studies to establish superiority are in progress.

NARRATIVE REPORT

I am currently Medical Director at Boston Urogyn and previous Founder and Chief of the Division of Urogynecology and Reconstructive Pelvic Surgery at Brigham and Women's Hospital. Since my early days of training and practice within the Harvard Medical School system, my focus has been on innovation, education, and clinical excellence, In my former role at BWH and in my current role at Boston Urogyn, I focused on high volumes of advanced urogynecology with referrals for many complex and redo cases. My evolution of advanced surgical techniques allowed me to operate on many patients previously considered poor surgical candidates with shortened operative times, reduced hospitalization, and fewer complications. Because of my high annual caseload of advanced urogynecologic procedures (500 cases/year) I am a proficient and highly sought after gynecologic surgeon in this subspecialty for clinical services, research and education. My clinical activities account for approximately 80% of my professional time. I was also active in teaching BWH residents on a weekly basis with the responsibility of teaching advanced techniques in urogynecologic surgery to residents as well as fellows, medical students, and attendings who may scrub in on surgeries. I also taught PA students on a monthly basis in the office setting. This teaching component previously accounted for approximately 10% of my professional time. I am also involved in national and international teaching of colleagues and well as continued clinical research and development of emerging technologies and techniques. This currently occupies the remaining 20% of my professional time.

Area of Excellence:
Since most of my professional activity revolves around the performance of developing advanced urogynecologic technologies and techniques, my area of excellence is Clinical Expertise and Innovation. I was one of the first surgeons on the country to perform the minimally invasive TVT

SUS and then helped develop, educate, and innovate the area of minimally invasive slings. I was the first person in the country to utilize a dermal graft for the augmentation of prolapse repair which resulted in reevaluation of the clinical and surgical principles of vaginal prolapse repair. I have developed unique and novel techniques of vaginal surgery improving safety and efficiency of the procedures. I along with the MIGS program at NWH and BWH became part of the first group to report a combined approach to vaginal and laparoscopic surgery for advanced prolapse allowing these complicated and traditionally lengthy procedures to be performed safely and effectively on an outpatient basis. Due to my surgical innovation, I have been invited to perform telesurgeries nationally and internationally. I have helped develop, patent, and put into clinical service a unique urinary catheter which allows cystoscopy to be performed in a safe, simple, and standardized fashion without the steep learning curve associated with a traditional rigid cystoscope. Currently, I am researching the use of advanced technologies for pelvic floor dysfunction. These include laser and RF energy, HiFEM technology, use of platelet rich plasma for pudendal neuralgia, bladder pain syndrome, and recurrent UTIs, and vaginal oxygen/hyaluronic acid treatment for GSM. I hope to develop safe and effective office based protocols for refractory and debilitating conditions including pelvic pain, pudendal neuralgia, and interstitial cystitis. Finally, I am actively involved in a team evaluating the potential of creating a new type of urinary catheter which may significantly reduce bladder trauma and decrease CAUTI and replace the traditional Foley catheter.

Teaching:
My contributions to education have included active teaching of medical students, residents, fellows and staff in the operating room. Following my fellowship and relocation back to Boston, I established the first Urogynecology fellowship in Boston and the Harvard Medical System at Mt. Auburn Hospital/Beth Israel-Deaconess Medical Center. Upon my appointment as Chief of Urogynecology at Brigham & Women's Hospital, I established the first fellowship in Urogynecology at Partners/MGB. During my time at BWH, teaching medical students, residents and fellows was a high priority of the Division. Our high clinical volume, focus on research, and combined resources at BWH made it a highly sought after fellowship. During my time at BWH, mentorship and teaching led to many residents pursuing Urogynecology fellowships and fellows actively contributing to the pursuit of science and associated presentations/publications. In my current role at Boston Urogyn, I continue to do clinical research and teaching/lecturing both on a national and international level in topics of advanced Urogynecology.
